

dj Miss beat

I'm Laura, the DJ behind DJ Miss Beat. With over 20 years of experience, I've performed at a wide range of events, bringing music, energy and the right atmosphere to every occasion.

For me, being a DJ is about much more than playing music. It's about reading the room, understanding the crowd and knowing exactly how to build the energy, create connections and keep people engaged.

From corporate events and brand experiences to private parties and exclusive celebrations, my goal is always the same: to create the perfect soundtrack for the occasion and turn every event into a memorable experience.

Because when the music is right, people connect, the atmosphere comes alive and moments become memories.
